

Flavor Spotlight

Green Hatch Chili

Hailing from New Mexico, green hatch chilies are known for a smoky flavor profile with earthy heat, a tint of sweetness and mild tanginess. A true **superstar of Tex-Mex cuisine**, the Hatch chili brings vibrant flavor to a wide range of applications, including sauces, snacks and meats.

From our experts

“Green hatch chiles are earthy with **hints of grassiness and smoke**. Their flavor profile is a natural fit for ranch, so you can brighten up a familiar dressing or dip. Other potential flavor pairings include cheddar, chicken, and pork.”

- Erika James, Scientist II- Flavor Innovation
